INTRODUCING OUR
FIRST INDIVIDUAL & FAMILY HEALTH INSURANCE PLAN

Now there’s a plan for everyone
ABOUT US University of Utah Health Plans (UUHP) was formed in 1998 as a strategic initiative of University of Utah Health Care. We are committed to the “triple aim” of improving experience and quality of care, improving the health of populations, and reducing the per capita cost of care. We currently serve over 155,000 members, specializing in the health plan administration of medical, mental health and pharmacy benefits for individuals and family as well as government programs including Medicare and Medicaid. Being integrated with University of Utah Health Care, we are uniquely positioned to bring greater value, better cost-efficiency and an increased patient focus to our members. We believe in the power of collaboration and the significant influence it has on cost, quality and care.

CARE MANAGEMENT

Our care management team is led by distinguished physicians, highly skilled nurses and care coordinators that help members navigate the healthcare system to improve their healthcare experience resulting in the best outcomes while providing cost-effective care.

Our programs are built around population health, disease management, and quality improvement.

A few of our care management teams include:
- U Baby Women’s Health Team
- Pediatric Special Needs Team
- Adult Complex Chronic Needs Team
- Behavioral Health Team
- Health & Wellness Team
- Inpatient Navigator Team

NETWORK Providing access to the highest quality of care is very important to us. We value provider performance, quality, and consumer satisfaction. Our contracts incentivize providers to deliver value and quality through quality performance expectations and value-based payment programs.

Healthy Premier is a large network of community providers partnering with University of Utah Health Care to provide access for members primarily along the Wasatch Front.

12 HOSPITALS
19 URGENT CARE CENTERS
5,600+ PROVIDERS IN UTAH

HEALTH BENEFITS

Our plans are designed to include these ten essential health benefits:

• Outpatient care—care without being admitted to a hospital.
• Trips to the emergency room.
• Treatment in the hospital for inpatient care.
• Care before and after your baby is born.
• Mental health and substance use disorder services: This includes behavioral health treatment, counseling, and psychotherapy.
• Your prescription drugs.
• Services and devices to help you recover if you are injured, or have a disability or chronic condition. This includes physical and occupational therapy, speech-language pathology, psychiatric rehabilitation, and more.
• Your lab tests.
• Preventive services including counseling, screenings, and vaccines to keep you healthy and care for managing a chronic disease. — No charge.
• Pediatric services.
