We focus on health, You focus on business
About University of Utah Health Plans

University of Utah Health Plans (UUHP) was formed in 1998 as a strategic initiative of University of Utah Health Care. We are committed to the “triple aim” of improving experience and quality of care, improving the health of populations, and reducing the per capita cost of care. We currently serve over 155,000 members, specializing in the health plan administration of medical, mental health and pharmacy benefits for individuals and family as well as government programs including Medicare and Medicaid.

Being integrated with University of Utah Health Care, we are uniquely positioned to bring greater value, better cost-efficiency and an increased patient focus to our members and clients. We believe in the power of collaboration and the significant influence it has on cost, quality and care.

Traditional TPA (Single Aim) A Third Party Administrator (TPA) is an organization that processes insurance claims or certain aspects of employee benefit plans for a separate entity.
