| Important Questions | Answers | Why This Matters |
|---------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| What is the overall deductible? | \$0 at Indian Health Care Provider (IHCP) or with IHCP referral at non-IHCP; or For In-Network Providers: \$1,500/Individual, \$3,000/Family | Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan , each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible . |
| Are there services covered before you meet your deductible? | Yes, Preventive care; office visits and prescription drugs. | This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ . |
| Are there other deductibles for specific services? | \$0 at IHCP or with IHCP referral at non-IHCP; or Yes, \$500 /individual or \$1,000 /family for prescription drugs. | You must pay all of the costs for these services up to the specific deductible amount before this plan begins to pay for these services |
| What is the out-of-pocket limit for this plan? | For In-Network Providers: \$7,000/Individual, \$14,000/Family | The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan , they have to meet their own out-of-pocket limit until the overall family out-of-pocket limit has been met. |
| What is not included in the out-of-pocket limit? | Premium, Balance Billing Charges and Health Care this plan does not cover | Even though you pay these expenses they don't count toward the out-of-pocket limit . |
| Will you pay less if you use a network provider? | Yes. See https://uhealthplan.utah.edu/individual/ or call 801-213-4111 for a list of network providers . | This plan uses a provider network . You will pay less if you use a provider in the plan's network . You will pay the most if you use an out-of-network provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services. |
| Do you need a referral to see a specialist? | No | You can see the specialist you choose without a referral. |

All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies.
