

## Modifier -78

**Policy Reimb-006**

**Origination Date:** 09/17/2020

**Reviewed/Revised Date:** 11/30/2020

**Next Review Date:** 11/30/2021

**Current Effective Date:** 01/30/2021

### Disclaimer:

1. Policies are subject to change in accordance with State and Federal notice requirements.
2. Policies outline coverage determinations for U of U Health Plans Commercial, and Healthy U (Medicaid) plans. Refer to the "Policy" section for more information.

### Description:

Modifier 78 is used to report the unplanned return to the operating/procedure room by the same physician following an initial procedure for a related procedure during the postoperative period. It may be necessary to indicate that another procedure was performed during the postoperative period of the initial procedure (unplanned procedure following initial procedure). When this procedure is related to the first surgical procedure, and requires the use of the operating/procedure room, it may be reported by adding the Modifier 78 to the related procedure.

Consistent with CMS and CPT, modifier 78 should be reported with procedure codes for treatment of postoperative complications that require a return trip to the operating room. Per CMS, an operating room is defined as a place of service specifically equipped and staffed for the sole purpose of performing procedures. The term operating room includes a cardiac catheterization suite, a laser suite and an endoscopy suite. It does not include a patient's room, a minor treatment room, a recovery room, or an intensive care unit (unless the patient's condition was so critical there would be insufficient time for transportation to an operating room.)

### Policy Statement and Criteria

#### 1. Commercial Plans

**U of U Health Plans may reimburse services surgical services appropriately appended with a modifier 78 at the reimbursement amount of 75% of the applicable U of U Health Plans fee schedule when ALL the following criteria are met:**

- A. The return to the operating room is unplanned.
- B. The service is performed by same physician who performed the initial procedure.

- C. The service is related to the initial procedure.
- D. The service is performed during the postoperative period of the initial procedure (10-90 days).

Modifier -78 is not covered if appended to procedures having a Global Days Value of 010 or 090 which does not also have an Intraoperative Percentage in the CMS National Physician Fee Schedule Relative Value File.

**U of U Health Plans will not apply a new global period to a procedure meeting the above requirements and reported with a modifier 78.**

**U of U Health Plans will NOT reimburse modifier 78 in conjunction with modifiers 76, 77, or 79 as these are inappropriate to bill together.**

*Note: If the unplanned return is for an unrelated procedure and both are performed by the same provider who performed the initial service, use Modifier 79 instead.*

*If the return to the operating room was planned or a staged procedure, use Modifier 58 instead.*

## **2. Medicaid Plans**

Coverage is determined by the State of Utah Medicaid program; if Utah State Medicaid has no published coverage position and InterQual criteria are not available, the U of U Health Plans Commercial criteria will apply. For the most up-to-date Medicaid policies and coverage, please visit their website at:

<http://health.utah.gov/medicaid/manuals/directory.php> or the [Utah Medicaid code Look-Up tool](#)

## **3. Medicare Plans**

Coverage is determined by the Centers for Medicare and Medicaid Services (CMS); if a coverage determination has not been adopted by CMS, and InterQual criteria are not available, U of U Health Plans' commercial policies would apply. For the most up-to-date Medicare policies and coverage, please visit their search website at:

<http://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx?from2=search1.asp&> or [the manual website](#).

## **Clinical Rationale**

According to the CMS, Medicare Claims Processing Manual, Chapter 12, Section 40.4C: "When a CPT code billed with Modifier 78 describes the services involving a return trip to the operating room to deal with complications, pay the value of the intraoperative services of the code that describes the treatment of the complications."

## Applicable Coding

### CPT Codes

#### **Modifier -78**

Unplanned Return to the Operating/Procedure Room by the Same Physician or Other Qualified Health Care Professional Following Initial Procedure for a Related Procedure During the Postoperative Period

#### **Disclaimer:**

This document is for informational purposes only and should not be relied on in the diagnosis and care of individual patients. Medical and Coding/Reimbursement policies do not constitute medical advice, plan preauthorization, certification, an explanation of benefits, or a contract. Members should consult with appropriate health care providers to obtain needed medical advice, care, and treatment. Benefits and eligibility are determined before medical guidelines and payment guidelines are applied. Benefits are determined by the member's individual benefit plan that is in effect at the time services are rendered.

The codes for treatments and procedures applicable to this policy are included for informational purposes. Inclusion or exclusion of a procedure, diagnosis or device code(s) does not constitute or imply member coverage or provider reimbursement policy. Please refer to the member's contract benefits in effect at the time of service to determine coverage or non-coverage of these services as it applies to an individual member.
