Description:

Many Plans exclude the coverage of "routine foot care". CMS defines "routine foot care" as the cutting or removal of corns and calluses, the trimming, cutting, clipping, or debriding of nails and other hygienic and preventive maintenance care, such as cleaning and soaking the feet, the use of skin creams to maintain skin tone of either ambulatory or bedfast patients, and any other service performed in the absence of localized illness, injury, or symptoms involving the foot. University of Utah Health Plans also follows this definition.

Policy Statement and Criteria

1. Commercial Plans

Routine foot care as defined by CMS is excluded from coverage by U of U Health Plans unless specifically outlined in the summary of plan description for a specific group or policy.

2. **Coverage is determined by the State of Utah Medicaid program; if Utah State Medicaid has no published coverage position and InterQual criteria are not available, the U of U Health Plans Commercial criteria will apply. For the most up-to-date Medicaid policies and coverage, please visit their website at:**

CPT/HCPCS codes covered by Utah State Medicaid may still require further evaluation to determine medical necessity for coverage.

3. Medicare Plans

Coverage is determined by the Centers for Medicare and Medicaid Services (CMS); if a coverage determination has not been adopted by CMS and InterQual criteria are not available, the U of U Health Plans Commercial criteria will apply.
