What is Health Care Fraud and Abuse?

We want to make sure your health care dollars are used right. Fraud and abuse can make health care more expensive for everyone. Fraud and abuse could be committed by anyone.

Fraud is when a person does something on purpose so that the person gets something he or she shouldn't. If a person tries to get health care from a doctor by using another person's Health Plans Id Card. Another type of fraud is if a doctor bills Health Plans on purpose for a service that wasn't performed.

Abuse is when a person does something that costs Health Plans program extra money. If a Health Plans member goes to the emergency room when it isn't really an emergency. Another type of abuse is when a doctor performs more services than the patient needs.

What can I do to stop Fraud and Abuse?

Do not give your ID number to anyone except your doctor or provider.

Do not ask your doctor or other provider for health care that you do not need.

If you are offered free health care in exchange for your ID card number, call Health Plans.

If someone says they know how to make Health Plans pay for health care that we do not pay for, please call us.
